NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of The Hanover New Jersey Insurance Company ("the Company") are presented on the basis of accounting practices prescribed or permitted by the State of New Hampshire Insurance Department.

The State of New Hampshire Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of New Hampshire for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the New Hampshire Insurance Law. The National Association of Insurance Commissioners ("NAIC") "Accounting Practices and Procedures Manual" ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of New Hampshire. The State has not adopted any prescribed accounting practices that differ from those found in NAIC SAP.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of New Hampshire is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by loans are stated at either amortized cost or fair value, using the scientific interest method, in accordance with the NAIC Purposes and Procedures of the Securities Valuation Office.
- (3) Common stocks are carried at fair value.
- (4) The Company does not own any preferred stocks.
- (5) The Company does not own any mortgage loans.
- (6) Loan-backed securities are stated at either amortized cost or fair value, in accordance with the NAIC Purposes and Procedures of the Securities Valuation Office
- (7) The Company does not own any stocks of, or have any interest in, any subsidiaries.
- (8) The Company does not own any other invested assets.
- (9) The Company does not own any derivatives.
- (10) The Company does utilize anticipated investment income as a factor in the premium deficiency calculation.
- (11)Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported ("IBNR"). Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior year.
- (13) The Company does not write major medical insurance with prescription drug coverage.

On August 16, 2022, the Inflation Reduction Act ("Act") was enacted and included a new corporate alternative minimum tax ("CAMT"). The Act and the CAMT go into effect for tax years beginning after 2022. The CAMT is 15 percent of the corporation's "adjusted financial statement income" for the tax year, reduced by corporate alternative minimum foreign tax credit, and will only apply to corporations (determined on an affiliated group basis) with average adjusted financial statement income in excess of \$1 billion for the three prior tax years. This threshold is reduced to \$100 million in the case of certain foreign-parented corporations. The Company does not expect to be subject to the CAMT in 2023.

The Company is a wholly-owned subsidiary of The Hanover Insurance Company ("Hanover") which, in turn, is a wholly-owned subsidiary of Opus Investment Management, Inc. ("Opus"), which, in turn, is a wholly-owned non-insurance subsidiary of THG, a publicly traded company incorporated in Delaware.

On December 15, 2021, Hanover entered into a Stock Purchase Agreement, later amended by the Assignment and Amendment of Stock Purchase Agreement, dated as of November 21, 2022, and the Side Letter, dated December 16, 2022, (collectively the "Stock Purchase Agreement") with XLNT Holdco Inc. ("XLNT"), a Utah domiciled holding company pursuant to which Hanover agreed to sell all of the outstanding capital stock of the Company to XLNT, subject to the parties obtaining regulatory approvals and the satisfaction of the other customary closing conditions set forth in the Stock Purchase Agreement. The closing of the transaction occurred on February 9, 2023. Pursuant to an amendment to the existing reinsurance agreement between the Company and Hanover effective at closing, the Company's underwriting liabilities on policies issued prior to the date of closing continue to be ceded 100% to Hanover. In addition, the Company, Hanover and XLNT entered into an Assumption and Administration Agreement, also effective as of the date of closing. Pursuant to the Assumption and Administration Agreement, Hanover agreed to administer the Company's policies issued prior to the date of closing, among other things. Prior to the closing, the Company, Hanover and XLNT have obtained all the requisite approvals for these transactions from the state of New Hampshire Insurance Department.

B. Detail of Transactions Greater than 1/2% of Admitted Assets

Upon approval of the New Hampshire Insurance Department, the Company completed the first portion of a planned recapitalization consisting of a return of capital of \$13,913,191, an ordinary dividend of \$121,135 and an extraordinary dividend of \$4,617,957. Additionally, the Company sold bonds to Hanover, at fair market value of \$6,567,232, for cash. These transactions were settled on June 28, 2022, by transferring bonds to Hanover at fair value of \$25,066,818 and accrued interest of \$152,697. As a result of these transactions, the Company incurred net realized losses in the amount of \$2,498,878 during June 2022. On July 14, 2022, an additional return of capital of \$1,050,000 to Hanover, was settled in cash and on September 29, 2022, the remaining portion of a planned recapitalization, a return of capital of \$3,759,478 to Hanover, was settled in cash.

NOTE 20 Fair Value Measurements

٨

- (1) Fair Value Measurements at Reporting Date
 - a. There were no assets carried at fair value at the end of the reporting period.
 - b. The Company does not have any liabilities measured at fair value at the end of the reporting period
- (2) The Company does not have any Level 3 assets or liabilities measured at fair value at the end of the reporting period
- (3) The reporting entity's policy is to recognize transfers in and transfers out as of the actual date of the event or change in circumstances that caused the transfer
- (4) For fair value measurements categorized within Level 2 of the fair value hierarchy, fair values of bonds are obtained by a quoted market price if available, otherwise, fair values are estimated using independent pricing sources or internally developed pricing models using discounted cash flow analyses.

The Company utilizes a third party pricing service for the valuation of the majority of its fixed maturity securities and receives one quote per security. When quoted market prices in an active market are available, they are provided by the pricing service as the fair value and such values are classified as Level 1. Since fixed maturities other than U.S. Treasury securities generally do not trade on a daily basis, the pricing service prepares estimates of fair value for those securities using pricing applications based on a market approach. Inputs into the fair value pricing applications which are common to all asset classes include benchmark U.S. Treasury security yield curves, reported trades of identical or similar fixed maturity securities, broker/dealer quotes of identical or similar fixed maturity securities and structural characteristics of the security, such as maturity date, coupon, mandatory principal payment dates, frequency of interest and principal payments and optional principal redemption features. Inputs into the fair value applications that are unique by asset class include, but are not limited to:

- U.S. government determination of direct versus indirect government support and whether any contingencies exist with respect to the timely payment of principal and interest.
- All other governments estimates of appropriate market spread versus underlying related sovereign treasury curves dependent on liquidity and direct or contingent support.
- Corporate bonds, which are included in Industrial and miscellaneous bonds overall credit quality, including assessments of the level and variability of: economic sensitivity; liquidity; corporate financial policies; management quality; regulatory environment; competitive position; ownership; restrictive covenants; and security or collateral.
- Municipal bonds, which are included in States, territories and possessions; Political subdivisions of states, territories and possessions; and Special revenue
 and special assessment obligations overall credit quality, including assessments of the level and variability of: sources of payment such as income, sales
 or property taxes, levies or user fees; credit support such as insurance; state or local economic and political base; natural resource availability; and
 susceptibility to natural or man-made catastrophic events such as hurricanes, earthquakes or acts of terrorism.
- Residential mortgage-backed securities, U.S. agency pass-thrus and collateralized mortgage obligations ("CMOs") which are included in U.S. governments
 and Special revenue and special assessment obligations estimates of prepayment speeds based upon: historical prepayment rate trends; underlying
 collateral interest rates; geographic concentration; vintage year; borrower credit quality characteristics; interest rate and yield curve forecasts; government
 or monetary authority support programs; tax policies; and delinquency/default trends.
- Residential mortgage-backed securities, non-agency CMOs, which are included in Industrial and miscellaneous estimates of prepayment speeds based
 upon: historical prepayment rate trends; underlying collateral interest rates; geographic concentration; vintage year; borrower credit quality characteristics;
 interest rate and yield curve forecasts; government or monetary authority support programs; tax policies; delinquency/default trends; and severity of loss
 upon default and length of time to recover proceeds following default.
- Commercial mortgage-backed securities, which are included in Industrial and miscellaneous bonds overall credit quality, including assessments of the
 value and supply/demand characteristics of: collateral type such as office, retail, residential, lodging, or other; geographic concentration by region, state,
 metropolitan statistical area and locale; vintage year; historical collateral performance including defeasance, delinquency, default and special servicer
 trends; and capital structure support features.
- Asset-backed securities, which are included in Industrial and miscellaneous bonds overall credit quality, including assessments of the underlying
 collateral type such as credit card receivables, auto loan receivables and equipment lease receivables; geographic diversification; vintage year; historical
 collateral performance including delinquency, default and casualty trends; economic conditions influencing use rates and resale values; and contract
 structural support features.

Generally, all prices provided by the pricing service, except actively traded securities with quoted market prices, are reported as Level 2.

The Company holds privately placed corporate bonds and certain other bonds that do not have an active market and for which the pricing service cannot provide fair values. The Company determines fair values for these securities using either matrix pricing or broker quotes. The Company will use observable market data to the extent it is available, but is also required to use a certain amount of unobservable judgment due to the illiquid nature of the securities involved. Additionally, the Company may obtain nonbinding broker quotes which are reported as Level 3.

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers'

	compensation contract issued without limit of loss? The Company cedes 100% of its business to The Hanover Insurance Company (Hanover). Hanover maintains workers' compensation coverage under its casualty excess of loss reinsurance agreement.					
6.2	Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process. The Company uses multiple models including RMS v18.1 and AIR Touchstone v8 Catastrophe Modeling software packages to estimate the Company's probable maximum loss. These exposures are a combination of personal and commercial property risks.					
6.3	What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss? The Company cedes 100% to the Hanover Insurance Company. Effective July 1, 2022, we have catastrophe protection through a per occurrence excess of loss reinsurance agreement with Commonwealth Re Ltd. ("Commonwealth Re"), an independent company, licensed as a Special Purpose Insurer in Bermuda. The reinsurance agreement meets the requirements to be accounted for as reinsurance in accordance with the guidance for reinsurance contracts. In connection with the reinsurance agreement, Commonwealth Re issued notes (generally referred to as "catastrophe bonds") to investors in amounts totaling \$150 million, consistent with the amount of coverage provided under the reinsurance agreement as described below. The proceeds were deposited in a reinsurance trust account. The reinsurance agreement provides us with coverage of up to \$150 million through June 30, 2025, for catastrophe losses from named tropical storms or hurricanes, including all events or perils directly resulting from such storm or storm system, which may include, by way of example and not limitation, hurricane, wind, gusts, typhoon, hail, rain, tornadoes, cyclones, ensuing flood, storm surge, water damage, fire following, sprinkler leakage, riots, vandalism, and collapse. For events up to and including June 30, 2025, we are entitled to begin recovering amounts under this reinsurance agreement if the covered losses in the covered losses reach a maximum \$1.45 billion. The attachment amount of \$1.3 billion. The full \$150 million coverage amount is available until such covered losses reach a maximum \$1.45 billion. The attachment level and the maximum level (or exhaustion level) under this agreement may be reset annually to adjust the expected loss of the layer within a predetermined range.
