 If the answer to question 1.1 is "no", leave the following questions blank. If the answer to question 1.1 is "yes", please answer the following questions:

2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as "Defense and Cost Containment" and "Adjusting and Other") reported in compliance with these definitions in this statement? Yes [X] No []
3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. When allocating Adjusting and Other expense between companies in a group or a pool, the Adjusting and Other expense should be allocated in the same percentage used for the loss amounts and the claim counts. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract. For Adjusting and Other expense incurred by reinsurers, or in those situations where suitable claim count information is not available, Adjusting and Other expense should be allocated by a reasonable method determined by the company and described in Interrogatory 7, below. - 7.2 (An extended statement may be attached.)

SCHEDULE P INTERROGATORIES – ATTACHMENT

7.2

Other Items:

- A) Individual case reserves are maintained for a portion of unpaid defense and cost containment expenses for certain lines of business. The remainder of loss adjustment reserves for reported claims are actuarially established and reported as IBNR.
- B) Larger than expected catastrophe losses were experienced during accident years 2012, 2017, 2021, 2022 and 2023.
- C) During 2016, the Company experienced increased unfavorable development as a result of its fourth quarter 2016 actuarial reserve review, primarily related to long-tailed commercial liability coverages. In general, the higher than expected loss and LAE emergence in 2016 led the Company to adjust its reserve assumptions in its year-end reserve review and place greater weight on the adverse severity trends experienced in the most recent calendar years.
- D) During 2017, the Company experienced increased unfavorable development in the Accident and Health line of business on both a gross and discounted basis, primarily due to the Company's participation in a long-term care pool, which is in runoff. During the fourth quarter of 2017, the Company received updated future cash flow projections from the manager of the long-term care pool that reflected a significant increase in projected claim costs. As a result of this deterioration, 2017 Schedule P Part 2 reflected an increase in gross reserve development of \$90 million, including increases in the tabular discount of approximately \$60 million and net reserves of approximately \$30 million for the long-term care pool. During 2018, upon management's re-assessment of current and future projected cash flow projections for the long-term care pool, as well as other discount assumptions, the Company reduced its net Accident and Health reserves by approximately \$10 million. 2018 Schedule P Part 2 reflects this decrease in gross reserves in addition to a change in the tabular discount of approximately \$20 million.
- E) Lower than expected personal auto losses were experienced in accident year 2020 due to fewer accidents and decreased claim activity resulting from fewer miles driven as a result of the Pandemic.
